Outside of France, no other delegate from Europe.

This is the little message I said on behalf of French Peace Movement:

I be part of the French Peace Movement delegation. We are 8 delegates.

Only few words to express the solidarity of the French Peace Movement with the “All-Okinawan” Forces.

More generally we are opposed with stranger military bases in any country because there is a form of occupation of the countries where they are.

We pledge in front of you to inform people in France about the reality of Okinawa but also of Philippines and Guam island realities.
