

WE LOVE LIFE, WE LOVE OUR PLANET, WE CURSE WARS !

ON SEPTEMBER 21, 2022 ON THE OCCASION OF THE INTERNATIONAL DAY OF PEACE

Everywhere in France, together, let's act!

For Peace, climate, social justice, living together in Peace.

Peace on earth, friendship between peoples ! Let's be in solidarity! Our destinies are linked!

There is not a town in France where there is not an action for peace, a walk, a demonstration, a circle or a meeting point for peace, a symbolic action, a walk of a few hundred meters, a walk in the middle of nature, a tree planted for Peace, a sign for Peace posted on : the pediment of a city hall, a union or association or political office or a place of worship, a theatre, a high school, a university, a building, one's house, one's apartment, ...

Everywhere must resound this call

« Stop all wars ! Stop the war in Ukraine ! Stop the violence ! Stop the misery! Friendship between peoples ! No to a war economy ! »

Let's dare to be peaceful together ! Let us cultivate peace ! Let us build peace ! Let us win peace !

None of our differences in convictions, affiliations, philosophical, political, religious, trade union or other sensitivities should be an obstacle to the expression of this common aspiration to live together in Peace in solidarity, cooperation, justice and fraternity.
